RE: Electronics Recycling

Dear Ms. Lorscheider,

In order to become eligible to receive funding from the electronics management account, Alleghany County has enclosed the following documents; the specific solid waste management plan amendment, the specific revised planning element document, letter from Town of Sparta, full version of the solid waste management plan with amendments. Our update addresses the specific electronics components in the recent legislation. This addendum was prepared based on instructions received at a recent workshop and other information provided by the DWM. Please contact me at (336) 372-4179 if this addendum is insufficient for any reason.

Respectfully,

Don Adams
County Manager

SOLID WASTE MANAGEMENT PLAN AMENDMENT

The following has been inserted into to Alleghany County's Solid Waste Management Plan under the "Special Waste Section". A copy of the revised plan is attached. An updated "Planning Elements" sheet has also been added to the Plan.

ELECTRONICS RECYCLING/DISPOSOAL
PLAN AMENDMENT (11/1/10)
(Formerly referred as "Computer Equipment and televisions")

Alleghany County will implement a recycling program for electronic waste. Material to be recycled includes, but not limited to; CRTs, TVs, hard drives, scanners, fax machines, copiers and other miscellaneous electronic equipment. Alleghany Count will work with an electronics recycling company that has received all certifications in compliance with the requirements of the State of North Carolina.

As defined in Session Law 2010-67, computer equipment / televisions banned from landfills and other electronic materials acceptable eCylcleSecure will be collected at a permanent drop-off site located at the Alleghany County Transfer Facility. eCycleSecure will provide a trailer for collection and pallots/gaylord boxes for sorting. eCycleSecure will pick up as needed by the County and transport the collected materials to their facility for recycling and further disposal. Collection of materials will begin on or before July 1, 2011.

Information regarding electronics recycling will be publicized by placing appropriate signage at the Transfer Facility and by placing articles in the local newspaper informing citizens of the new law and the available option to recycle at the Transfer Facility.

The County's contract with the electronics recycler will include a requirement for the vendor to track the tonnage collected, and report these figures to the County. **Televisions will be tracked separately from other equipment.**

At this time no other local governments within Alleghany County will be involved in the County's electronic waste management program. Sparta may, at their discretion, direct their citizens to the County program.

A separate account will be established for state electronics funds received by the County. These funds will be used to establish and operate the electronics recycling program **only**. The receipt and expenditure of these funds will be tracked separately from other County budget items.

Re: Solid Waste Management Plan Amendment

Dear Don:

This letter is to acknowledge receipt of Alleghany County's solid waste plan update regarding recycling of computer equipment and televisions. I have read the addendum and understand the County's new procedure for collecting and recycling computer equipment and televisions.

The amendment to the County plan was presented during the regular meeting of the Sparta Town Council on Tuesday, December 7, 2010, and upon a motion to accept the County's amended plan, the Council voted unanimously in favor of the motion.

If you need anything further regarding this matter, please let me know.

Sincerely,

Bryan Edwards

Bryan Edwards, Manager
Town of Sparta
