Subject: Falls Lake rules and future generations

Dear Sir,
I feel that after attending the meeting at Neal Middle School that I must let you know how I truely felt by the end of the meeting.
It seems to me as a plain private citizen who has fought for Falls Lake on behalf of a generation that can't even use the lake yet, 25 years means that the generation I just spoke about will be the very one that will be responsible to make sure this Lake is cleaned up!!!!!! I think that it should and could happen much faster.
Also, I heard at the the whines and crys of Durham county about this was not a benefit to them but, they were going to bare the brunt end of the cost ! HOW DARE DURHAM....THEY HAVE HAD THE BENEFIT FOR TWENTY-FIVE YEARS AND NOW THAT IT IS TIME TO PAY TO CLEAN UP THEIR MESS THEY COMPLAIN. ENOUGH...RALEIGH CITIZENS HAVE DRANK ENOUGH OF DURHAMS TOILIT FLUSHINGS.
When I visit my mother and father in laws in Raleigh ,I, can not drink the water. It just smells like Chlorine and the closer it gets to my mouth I can not stand the smell. I take my own well water in to town.Talk about sad, they now only drink bottled water...not tap. They are in their eighty's and don't like the taste of the water....WHAT DOES THAT TELL YOU.

PEASE CLEAN UP FALLS LAKE SOONER RATHER THAN LATER !!!!!!!!

Thank -you,
Amy Poole
