Determination of Minor Construction Activity

North Carolina Division of Water Quality
Infrastructure Finance Section

Project Applicant:	City of Henderson
Date:	October 5, 2012
Project Number:	CS370410-07
Estimated Project Cost:	$1,836,000
Estimated Funding Amount:	$1,800,000

Project Description: The proposed project will replace major pump station components at the existing Sandy Creek Pump Station. The station has contributed to SSOs and is pumping much less than the design rate of 2,750 gallons per minute. Improvements will include (1) a new dry-pit, (2) two new dry pit, non-clog pumps of approximately 2750 gallons per minute capacity, (3) new VFD pump drives, (4) a new backup generator, (5) a new flow monitoring fault, (6) a new influent bar screen, (7) new bypass pumping connections for emergency bypass pumping, (8) piping and valves, and (9) related appurtenances.

The above named applicant intends to apply for assistance from the State Revolving Fund program to construct the wastewater facilities described above. The North Carolina Division of Water Quality (DWQ) has conducted a review of the project in accordance with the procedures (NCAC 15A Subchapter 1C) for conformance with the North Carolina Environmental Policy Act. The DWQ has determined that this project is below the minor construction activities threshold outlined in 15A NCAC 01C .0408; therefore, the project is exempt from inter-agency review, and the preparation of additional environmental documents is not required.

This determination shall become effective upon its distribution by DWQ and will be available on the DWQ Infrastructure Finance Section's website (http://portal.ncdenr.org/web/wq/ifs/er/fonsis). This determination can be revoked at any time adverse information is made available. The documentation to support this decision will be on file with the North Carolina Department of Environment and Natural Resources, Division of Water Quality, Infrastructure Finance Section, and is available for public scrutiny upon request.

Comments concerning this decision may be addressed to Ms. Jennifer Haynie, Facilities Evaluation Unit, Infrastructure Finance Section, Division of Water Quality, 1633 Mail Service Center, Raleigh, North Carolina 27699, or she can be reached by phone at (919) 707-9173.

Sincerely,

Kim H. Colson, P.E., Chief
Infrastructure Finance Section
Division of Water Quality
