Subject: **NPDES Permit - DRAFT Review**
Permit NC0046531
Charlotte Terminal
7720 Mount Holly Road
Mecklenburg County

Dear Mr. Carlisle:

The Division of Water Quality (the Division) has reviewed your application to renew the subject NPDES permit. Attached, please find a copy of the permit draft for your review and comment.

Concurrent with this draft review, the Division will solicit public comment by publishing a notice in newspapers having circulation in the general Mecklenburg County area, as required by the NPDES Program. Please provide your comments, if any, regarding this draft to DENR / DWQ / NPDES Program **no later than October 15, 2010** approximately 30 days after receiving this document.

The Division notes that since last renewal you have not modified your wastewater treatment system. We have made only one change to your previous permit – the limit for Benzene of 1.19 mg/L (~parts per million) has been changed to **1.19 µg/L** (~parts per billion) – a typographical error now corrected.

Following the mandatory 30-day public comment period, the Division will review all pertinent comments and take appropriate action prior to issuing a final NPDES permit. If you have questions concerning this draft, please contact me by e-mail [joe.corporon@ncdenr.gov], or call me at (919) 807-6394.

Sincerely,

Joe R. Corporon, L.G.
NPDES Program
