County	Project Type	Stream Name	Acres	Total Buffer Impact Feet	Width reduction Feet	Channel relocation Feet	Waiver Action	Water Class
Henderson	Road Paving	UT Harper Creek		343	343		Approved	B Trout
Widening to be done on side away from stream, no loss of streambank vegetation								
Polk	Road Paving	Pulliam Creek		240	420		Approved	C, trout
Widening to be done on side away from stream, no loss of streambank vegetation								
Avery	Buffer Restoration	UTT Shawneehaw Creek	2	100	100	0	Approved	C Trout
Buffer was removed without waiver, area being replanted to correct violation.								
Clay	Road Paving	Fires Creek	1.7	650	650		Approved	WS-IV, Trout
Widening to be done on side away from stream, no loss of streambank vegetation								
Henderson	Road Paving	UT Tumblebug Creek		270	270		Approved	C, trout
Widening to be done on side away from stream, no loss of streambank vegetation								
Transylvania	Road Paving	UT Indian Creek		155	155		Drafted	C trout
Widening to be done on side away from stream, no loss of streambank vegetation, except at 10' culvert extensions. Replacing perched pipes.								
Stokes	Stream Restoration	Little Peters Creek	2	720		720	Approved	
720 feet of channel relocation to restore natural dimensions, to be replanted, plus 8780 feet of buffer restoration with cattle exclusion and plantings.								
McDowell	Bank Stablization	North Fork Catawba River	1	1174	1174		Approved	B, Trout
There were no trees on the stream banks of the golf course. 174 feet with rock toe protection and native grasses, 1000 feet planted with native trees.								
Jackson	Sewer	UT Scott Creek	0.25	180	180		Approved	C, trout
Relocation of sewer away from stream. No trees were removed. Native grasses required for seeding within buffer.								
Macon	Bank Stablization	Wayah Creek		170	170		Approved	C Trout
Some undermined trees removed. All areas replanted with trees.								
Buncombe	Sewer	Reems Creek	4.4	1430	1430		Drafted	C, trout
Replacement of existing sewer further away from stream. Native grasses to be planted in buffer.								
Ashe	Highway	Roaring Fork Creek	1	590	590	0	Approved	C Trout
160 feet of wooded bank being disturbed. Approx. 350 feet will be planted with a buffer 15-20 feet wide where old road removed								

Transylvannia	Stream Restoration	Little River	1	440	440	0	Approved	C Trout
No removal of woody plants except damaged trees. Area compacted by foot traffic and storm damage to be stabilized.								
Watauga	Bank Stablization	Watauga River	0.7	600	600		Drafted	B, HQW, Trout
Some removal of leaning trees to install rock, and replanting of 600 feet with woody plants.								
Polk	Bank Stablization	Ostin Creek	0.9	1600	1600		Approved	C, Trout
Stablization of collapsing banks with rock toe protection, rock vanes and planting banks with woody vegetation.								
Watauga	Bank Stablization	Winklers Creek					Drafted	C Trout
Stablization of collapsing banks with rock toe protection, rock vanes and planting banks with woody vegetation.
