PUBLIC MEETING

To present information concerning the
Alcoa Facility in Badin
and to present information from the
Yadkin River Basin Sediment and Fish Tissue Study.

This is to notify the public of a Public Meeting to present information concerning the Alcoa facility in Badin and to present information from the Yadkin River Basin sediment and fish tissue study.

A Public Meeting will be held Monday, May 13, 2013 beginning at 6:00 pm at the Morrow Mountain State Park Lodge (Community Building) located at 49104 Morrow Mountain Rd, Albemarle, NC. Information and direction to the Park can be found at
http://www.ncparks.gov/Visit/parks/momo/main.php .

The meeting is being held to:
1) present information received from Alcoa concerning the latest Engineering Data collection conducted at the Alcoa facility. This data collection was conducted to provide information to drive the remedy selection. The data collection included an assessment of the material in the landfills, a hydrogeological assessment and a water quality assessment. The Section will also present information and seek comments on 4 remediation options, including the proposed final remedy, which Alcoa presented as a part of their final Corrective Measure Study; and
2) to discuss the results of the North Carolina Division of Public Health (DPH), the North Carolina Division of Waste Management (DWM), the North Carolina Division of Water Quality (DWQ) and the US EPA Region 4 Superfund Division (EPA) joint project to investigate polychlorinated biphenyls (PCBs) in sediment and fish tissue in High Rock Lake, Badin Lake, Falls Reservoir, and Lake Tillery. The purpose of the study is to determine if there are potential risks to human health due to PCBs in the Yadkin River system.

The meeting will consist of the presentations, question and answer period, followed by a breakout session for additional questions.

The Hazardous Waste Section is seeking comments on the remediation options and proposed final remediation presented for the Alcoa facility. It should be noted that in the future there will also be a formal public comment period and Public Hearing for the proposed remedy for the former Alcoa plant site.

Comments on the remedy should be sent to the following address:

Elizabeth Cannon
N.C. Division of Waste Management
Hazardous Waste Section
MSC 1646
Raleigh, NC 27699-1646
Or emailed to bud.mccarty@ncdenr.gov

The background documents concerning the Alcoa sampling and remedy selection can be found under the Alcoa Public Meeting link at http://portal.ncdenr.org/web/wm/hw . The information is also available

in the Hazardous Waste Section file located at 217 West Jones Street in Raleigh, North Carolina. Call (919) 707-8270 for an appointment before arriving.

Information concerning the High Rock Lake, Badin Lake, Falls Reservoir, and Lake Tillery sediment and fish tissue study will be posted at http://portal.ncdenr.org/web/wm/hw when it becomes available.

Anyone desiring additional information about the meeting can contact Bud McCarty at bud.mccarty@ncdenr.gov .
