PUBLIC NOTICE

PUBLIC HEARING
FOR
DRAFT HAZARDOUS WASTE RENEWAL PERMIT
FOR SAFETY-KLEEN SYSTEMS, INC.

This is to notify the public of the issuance by the North Carolina Division of Waste Management's Hazardous Waste Section of a draft renewal permit for the Safety-Kleen Systems, Inc. facility located at 125 Sommerville Park Road in Raleigh, North Carolina.

A Public Hearing will be held October 10, 2013 at 10:00 a.m. in the Town Hall Complex, Building B, Councilor's Chambers at 900 Seventh Avenue, Garner, North Carolina. All attendees will have the opportunity to present five (5) minute oral statements regarding the draft renewal permit and/or to submit written comments and data.

In conjunction with the Notice of Public Hearing for the draft renewal permit, written comments can also be sent during the public comment period of September 8, 2013 - October 23, 2013 to the following address:

Kathleen Z. Lawson
N.C. Division of Waste Management
Hazardous Waste Section
MSC 1646
Raleigh, NC 27699-1646

All data submitted by the applicant is part of the administrative record and available for your review Monday through Friday during office hours (9:00 a.m. to 4:00 p.m.). Copies of the renewal permit request, the draft renewal permit, and a fact sheet are available at the Hazardous Waste Section located at 217 West Jones Street in Raleigh, North Carolina. Call (919) 707-8270 for an appointment before arriving. The draft renewal permit, and a fact sheet can also be found at http://portal.ncdenr.org/web/wm/hw/news/pnotice.

A summary of the renewal permit follows: Safety-Kleen Systems, Inc. will continue management of hazardous waste in two container storage areas, one 15,000-gallon tank and two Drum Washer/Dumpster Units as regulated by the renewal permit. Hazardous wastes are brought on site from off-site customers and also generated as a result of managing the hazardous waste. The wastes are spent mineral spirits, spent immersion cleaner, paint wastes, and dry-cleaning wastes.

The spent mineral spirits may be stored in containers or placed in either of the two Drum Washer/Dumpster Units. The spent mineral spirits containers emptied into one of the Drum Washer/Dumpster Units will be washed within the unit. The waste from these units will be pumped to the 15,000-gallon tank for storage until it is transferred off site in a tanker truck.

All waste storage areas are provided with proper secondary containment. The maximum hazardous waste inventory allowed by the permit is 28,660 gallons. Safety-Kleen Systems, Inc. is required by the permit to have a contingency plan and safety and emergency procedures in place. Safety-Kleen Systems, Inc. has provided the contingency plan to local emergency response agencies.

Safety-Kleen proposed the installation of injection wells to address contaminated soil and groundwater

at the site. These corrective measures are being approved as Safety-Kleen's final remedy. Safety-Kleen will continue operating and monitoring this corrective action system per the condition of the renewal draft permit.

All comments received during the public comment period or at the hearing will be considered in the decision regarding this renewal permit. Comments received after the public comment period ends will not be considered. The statutory authority for calling the permit hearing is G.S. 130A-294(f). Applicable State rules are found in the North Carolina Hazardous Waste Management Rules 15A NCAC 13A .0105, .0109, and .0113. These rules adopt the requirements of the Federal Resource Conservation and Recovery Act as amended by the Hazardous and Solid Waste Amendments of 1984.

Anyone desiring additional information may contact Kathleen Lawson at (919) 707-8214 or kathleen.lawson@ncdenr.gov or at the address listed above.
